Scaffolding Net

The scaffolding net is the ideal solution for covering scaffolding to protect workers. Its mesh reduces the passage of sunlight, also protecting against the direct action of the wind.

benefits	Easy to apply UV Protection
applications	Construction
technical data	Measurements - 2mt, 3mt, 4mt length x 100mt / 120mt / 125mt width Shading - 70% to 90% Color - Green or white, other colors on request Presentation - Roll * Possibility of dialing in the network, on request
